Mondo Gelato = Mondo Good. They have about 20 flavors and of the 8 or 9 I tasted, they were all good.

The Gelato (Italian ice cream) here is made with all natural fresh ingredients and made fresh daily. I recommend the following Gelato flavors: Coffee (espresso) and Tiramisu.

The Sorbetto is a blend of 70%-80% fresh fruit with water and sugar. Their sorbet does not contain any artificial ingredients and are dairy free, fat free, and cholesterol free. I recommend the following Sorbetto flavors: Blueberry, Forest Berries, and Strawberry.

The guy working the counter was very patient with me while I sampled 7 different flavors before choosing 3. A medium cup with 3 flavors topped with whole frozen berries (see pics) was only \$3.50.

Great taste, great value, and great service. It's a great alternate to Frozen Yogurt when you're often in the mood for a healthy frozen treat. Varying it up will make your experiences more enjoyable. This place is worthy and deserving of a try.
